MESSAGE:
210825C JAN 91

- FRENCH 6th LE AR DIV had an AUTOMATIC CHEMICAL ALARM sound positive for nerve agent.
- Alarm was in DN Rear area near the 10th Engr REG
- USED Detector kit and again got a positive reading for G-Nerve
- DN went to equivalent of MOPPY

211050C Jan 91

- AM CLEAR Given

ACTION:

- suspect no chemical ATTACK but believe this to be downwind vapor hazard from AL SALMON Chem Agent Storage Area.

- Test by Czech vic. KKMC confirmed presence of GA, GD (nerve) and H (^{BLISTER} ~~toxic~~) in sublethal quantities.
- Czechs believe came south then North.
- More likely carried by different wind currents at different speeds to both locations.
